Subject: Phase II Bond Release Inspection of Reclaimed Areas, Plateau Mining  
Corporation, Star Point Mine, C/007/0006, Task ID #2968, Outgoing File

Dear Daron:

My staff has reviewed Plateau Mining Corporations application for the Phase II bond release for the Star Point Mine. This letter documents my concurrence with the bond release.

Please remind Plateau Mining Corporation that houndstongue has been added to the Utah list of noxious weeds. They are responsible to ensure that the houndstongue infestations are eliminated before final bond release.

Sincerely,

*Real P. Brown*
